PROFESSIONAL SUMMARY:

B.Tech Computer Science (IoT) student with strong understanding of Data Structures, Operating Systems and DBMS. Passionate about problem solving and building efficient software solutions through practical project experience. Demonstrated leadership and teamwork abilities while developing real-world applications. Eager to contribute technical skills and continuously learn in a dynamic engineering environment.

EDUCATION:

Bachelor of Technology, Computer Science (IoT)	CGPA: 8.28
Pranveer Singh Institute of Technology, Kanpur	(2023 - 2027)
Class XII	Percentage: 76.16
Kendriya Vidyalaya No.1 Armapur, Kanpur	(2022 - 2023)
Class X	Percentage: 94.40
Kendriya Vidyalaya No.1 Armapur, Kanpur	(2020-2021)

SKILLS:

- **Programming Languages:** Python, C
 - **Web Technologies:** HTML, CSS, JavaScript
 - **Database Management:** MySQL, Oracle
 - **Core CS Concepts:** DAA, OS, DBMS
 - **Soft Skills:** Analytical Thinking, Problem Solving, Team-Collaboration
-

PROJECTS:

NGOHUBX: Smart Emergency & Resource Allocation Platform (February – April 2026)

Technologies: HTML, CSS, JavaScript, Firebase, Gemini API, Google Maps API

- Developed a centralized platform to solve the problem of scattered NGO data and slow emergency response.
- Enabled citizen emergency reporting with location, urgency level, and proof uploads for faster issue identification.
- Implemented NGO verification and task creation workflow and automated volunteer matching based on skills and proximity.
- Added real-time tracking and dashboards to improve transparency and measure impact.

INFRASIGHT: (Team Leader) (March – May 2025)

Technologies: HTML, CSS, JavaScript, MySQL, Gemini API, Geo location API

- Led a team of 4 members in developing a web-based infrastructure reporting system.
 - Integrated Gemini API for automated classification of issues based on submitted images.
 - Implemented geolocation-based validation to verify field-level actions.
 - Designed and managed MySQL database for tracking complaints and resolutions.
 - Used Git for version control during development.
-

ACHIEVEMENTS:

- Solved 200+ Data Structures and Algorithms problems on LeetCode.
 - Achieved 5★ rating in Python and 5★ rating in SQL on HackerRank.
-

CERTIFICATIONS:

- JP Morgan Chase : Software Engineering Job Simulation ([Certification](#))
- Supervised Machine Learning : Coursera ([Certification](#))
- OCI AI Foundations Associate : Oracle ([Certification](#))
- Python : GUVI ([Certification](#))
- HTML, CSS, DBMS : Infosys Springboard ([Certification](#))
- OCI AI Foundations Associate : Oracle ([Certification](#))
